For Immediate Release

809 Design Awarded Missouri Sports Arena Installation

Charlotte, NC, September 24, 2009 – 809 Design LLC, a premier design firm that specializes on customized interior imaging solutions for college sports arenas has been selected by DJS Design Partners to fabricate and install their design elements at the University of Missouri.

809 Design, working under the direction of DJS Design Partners, will develop and install interior components for the Mizzou Athletics Training Campus as designed by DJS. “Our partnership with DJS Design Partners is a relationship that provides clients with innovative design from concept to install”, comments Eric Kucia, Owner of 809 Design. “The integrity of the design must be protected through the fabrication and install of the end product.”
